Operational
Car for CAUTERY J

2401
to be posted

REF: NSBA-10091

1. Retrospective approval is granted for the expenditure of 2700 DM from the CAUTERY allocation to buy a car for CAUTERY J. We will not request an amendment to the overall allocation at this time, but will do so later if you find, towards the end of the approved period (September 1952), that you will run short of funds for the project.

2. At your convenience please let us know what arrangements have been made with CAUTERY J regarding ownership of the car. If no final arrangements have been made, you may wish to follow the procedure established for providing [] with a car for similar purposes. The car was purchased by the agent with funds advanced to him, and he signed an agreement to return the car if his services for DAD ended in less than two years. If he is still with us at the end of two years, the car will become his as a gift.
